

Smart Tunnel reopens

KUALA LUMPUR: The Smart Tunnel was reopened to traffic at 5pm yesterday.

The tunnel had been closed since Saturday for flood mitigation operations after heavy downpours last week.

Malaysian Highway Authority (MHA) deputy director-general (planning and development) Ismail Md Salleh said the tunnel was reopened after inspections by and consultation with Syarikat Mengurus Air Banjir dan Terowong Sdn Bhd (Smart), the company managing the tunnel. —
